

Examples of Leadership and Academic Achievement

Leadership with Professional Development

During my senior year of high school, I had the privilege of teaching teachers in my school district about how to better utilize technology in the classroom. We covered topics ranging from "making learning fun with AR" to "fundamentals of the Google Suite"

Leading a Professional Development class was one of the great highlights of my senior year.

One part that I thought was really cool is getting to teach some of my former teachers.
(while I was a student!)

Academic Achievements
